## Due diligence processes for slavery and human trafficking

As part of our initiative to identify and mitigate risk we have in place processes and systems to:

- ▶ Identify inappropriate employment practices;
- ▶ Regularly monitor labour and payroll;
- ▶ Identify and assess potential risk areas in our supply chains;
- ▶ Mitigate the risk of slavery and human trafficking occurring in our supply chains;
- ▶ Identify, assess and monitor other potential risk areas;
- ▶ Investigate reports of Modern Slavery.

## Employee Training & Awareness

We believe that raising awareness is one of the most effective and successful methods to reduce the risk of modern slavery. With the knowledge and help of both our employees, and those in our supply chain, our aim is that there are no opportunities to hide forced labour. The training provides the knowledge on how to report, acknowledge and how to handle modern slavery in and around the workplace.

## Further Steps

Following a review of the effectiveness of the steps we have taken in 2021 to ensure that there is no slavery or human trafficking in our supply chains we intend to take the following further steps to combat slavery and human trafficking:

- ▶ Raise awareness of the Modern Slavery Policy with our employees and suppliers;
- ▶ Further our understanding of the supply chain practices and procedures of our key suppliers to understand how their businesses address the Modern Slavery Act.
- ▶ Additional training for employees as necessary.
