MODERN SLAVERY AND HUMAN TRAFFICKING

Introduction

The UK Modern Slavery Act 2015 stipulates that businesses are required to publish a statement each financial year demonstrating an understanding of the Act and the steps that are being taken to ensure that modern slavery and human trafficking are not taking place, whether within the business or its supply chains, in any way.

Modern slavery and human trafficking in all their various forms and guises are a crime in the UK and much of the world. They are a violation of fundamental human rights and as such Deta Electrical Company Ltd will not tolerate or condone slavery or human trafficking in any part of our organisation. We have a zero-tolerance approach to modern slavery and human trafficking and are totally committed to acting ethically and with integrity in all activities and business relationships and we expect our supply chain, contractors, employees and all other business partners to commit to the same.

The company will not knowingly support or deal with any business involved in slavery or human trafficking.

There were no reported incidents of modern slavery or trafficking in the 2023 financial year.

Deta Electrical Company Ltd have published this statement relating to the financial year ending 31st December 2023.

Our business

Deta Electrical Company Ltd is a market leading manufacturer and distributor of wiring and electrical accessories. With a focus on quality, reliability, and value for money the Company is a leading supplier in the UK wholesale market and has a strong presence in the Middle East, Africa and the Caribbean. Deta Electrical Company Ltd serves customers from several strategic sites utilising over 160 employees.

All company sites are based in the United Kingdom. The majority of our sales are within the UK, however we have a strong customer base in the Republic of Ireland, The Netherlands, Cyprus, Jamaica and St Lucia. A smaller percentage of sales go to countries including Hong Kong, Zambia, Turkey and France among others. Deta Electrical also works with a number of international suppliers from a number of countries, including:

- China
- Hong Kong
- India
- Hungary
- Taiwan
- Malaysia

While many of our suppliers operate within the European Union, we are conscious of the increased risk posed by the trade undertaken outside of this area and are working on building stricter controls to reduce our risk of exposure to unethical practices and procedures.

The majority of Deta Electrical Company Ltd.'s workforce is employed permanently, using agency workers as required.

In our 2023 statement we set out to implement our new Supplier Due Diligence Questionnaire across the Company. Distribution to suppliers for completion has begun however during the initial rollout of the Questionnaire to our largest suppliers it was reported that there were system compatibility issues for some recipients. We have since investigated the cause of the problem and made amendments to the way the Questionnaire is completed in order to resolve this. As a result of the delay this has caused, we have revised our target completion dates to ensure they remain reasonable and achievable ongoing.

Risk Assessment

Our business is based in the United Kingdom and as such has a low risk of exposure to modern slavery or trafficking. However, we do acknowledge that some areas in our supply chain are at an increased risk of modern slavery occurring (based on information taken from the Global Slavery Index).

Our Modern Slavery training includes important information regarding red flags and how to report concerns and we hope that this will encourage any individual with genuine concerns to raise them immediately and with confidence.

Monitoring Working Conditions

Through a process of regular audits, conducted by our internal audit team, we monitor the working conditions of our employees within our own organisation. The findings of these audits are then fed back to the Operational Directors and shareholders.

Our new Supplier Due Diligence Questionnaire requires our suppliers to provide information surrounding working conditions enabling us to better assess the overall conditions within our supply chain. Working conditions are also assessed during supplier and customer visits conducted by our commercial team.

Looking forward

We continue to work on the following improvements in the 2024 financial year:

Supplier Due Diligence Questionnaire – Continue to implement the Questionnaire for all new suppliers with immediate effect. All existing suppliers will be required to have completed the Questionnaire by December 2026, with a target of 50% completed by December 2025. Solicit feedback on the content and scope of the questionnaire to ensure it is as effective and comprehensive as possible ongoing.

Risk Assessment – We will work on developing our overriding risk assessment for engaging with a new supplier and improving the recording of our findings and assessment, with the aim to incorporate the new Questionnaire responses.

Deta Electrical Company Ltd will review both its supply chain and internal operations on an annual basis to check compliance with the above policy, and to ensure that our policy is being implemented effectively.

The Directors and senior management team will review the Company's statement in response to any major business, organisational or legislative changes or as a result of any breach or concern regarding modern slavery and approved this current statement.
