

SENSATA TECHNOLOGIES HOLDING PLC
SLAVERY AND HUMAN TRAFFICKING STATEMENT
For Fiscal Year January 1, 2025 through December 31, 2025

This statement has been prepared in accordance with the United Kingdom Modern Slavery Act 2015, Chapter 30, Part 6, Provisions 54 and the California Transparency in Supply Chains Act of 2010 and discloses measures taken by Sensata Technologies Holding plc and its subsidiaries (“Sensata”) during the 2025 fiscal year to address human trafficking and forced labor within its operations and supply chain.

Structure, Business and Supply Chain

The headquarters of Sensata Technologies Holding plc is located in Swindon, England. Sensata conducts its operations through subsidiary companies that operate business and product development centers primarily in Bulgaria, China, France, India, Japan, Mexico, the Netherlands, South Korea, the United Kingdom, and the United States; and manufacturing operations primarily in Bulgaria, China, Malaysia, Mexico, the United Kingdom, and the United States.

Sensata is a global industrial technology company that strives to help its customers and partners safely deliver a cleaner, more efficient, electrified and connected world. Through its broad portfolio of mission-critical sensors, electrical protection components and sensor-rich solutions, Sensata helps its customers address increasingly complex engineering and operating performance requirements. For more than 100 years, Sensata has been providing a wide range of customized, sensor-rich solutions that address increasingly complex engineering and operating performance requirements to help its customers solve their most difficult challenges in the automotive, heavy vehicle and off-road, industrial, and aerospace industries.

We organize our business into three reportable segments: (i) Automotive; (ii) Industrials; and Aerospace, Defense, and Commercial Equipment. As of December 31, 2025, we had approximately 16,000 employees. Approximately 80% of Sensata’s supplier spend is with 383 suppliers, some of which are located in countries that have been identified by the United States Department of State and the United Nations as having elevated risks of human trafficking and modern slavery.

Sensata is committed to identifying, assessing, and eliminating the risks of modern slavery and human trafficking within its internal operations and in its supply chain, consistent with the requirements of the United Kingdom Modern Slavery Act of 2015 and California Transparency in Supply Chains Act of 2010.

Policies

Sensata requires its employees and its suppliers to comply with all applicable country, state, municipal, and local laws, orders, and regulations, and specifically prohibits human trafficking and slavery. These requirements are set forth in Sensata’s [Code of Conduct](#), which has been translated into 11 different languages, [Human Rights and Working Conditions Policy](#), and [other related corporate policies](#), and are communicated to Sensata’s worldwide supply chain through its [Supplier Code of Conduct](#) and [Supplier Terms and Conditions of Purchase](#). Sensata’s leaders are responsible for ensuring our practices demonstrate a commitment to human rights.

Furthermore, Sensata requires its suppliers to agree to timely certify compliance with such laws when requested by Sensata and has advised its suppliers that they may be subject to audit for matters that are covered under its Supplier Code of Conduct, including the prohibition of human trafficking and slavery.

All employees and suppliers of Sensata may report possible violations of these and other policies through an [Ethics Hot Line](#). Retaliation against any individual who reports a violation of Sensata’s policies is strictly prohibited under Sensata’s Code of Business Conduct and Ethics.

Risk Assessment

Since 2021, Sensata has partnered with a third-party provider to assist in identifying and mitigating the risk of modern slavery and human trafficking throughout its global supply chain. Sensata’s approach

SENSATA TECHNOLOGIES HOLDING PLC
SLAVERY AND HUMAN TRAFFICKING STATEMENT
For Fiscal Year January 1, 2025 through December 31, 2025

focuses on surveying its suppliers that make up 80% of its total spend and are located in high-risk countries, which included 1,412 suppliers in 2025. During supplier engagement campaigns conducted in 2021 and 2022, response rates to the Slavery & Trafficking Risk Template (STRT) were limited. As a result, Sensata revised its approach beginning in 2023, moving to a more targeted and risk-aligned survey methodology designed to elicit more meaningful supplier participation and insights.

Under this revised approach, Sensata surveys suppliers across three key areas, which collectively assess supply chain exposure to the salient risks of child labor, forced labor, and human trafficking:

- **Human Rights:** Survey evaluates supplier policies, procedures and management systems related to human rights and performance against international standards, conventions and agreements. Topics addressed include data privacy and security, use of security personnel, respect for indigenous land and people, and sub-supplier requirements to uphold human rights.
- **Labor Rights:** Survey assesses supplier policies, due diligence mechanisms, internal programs and certifications related to labor issues, including performance against international standards, particularly the ILO core conventions. Topics addressed include wages and benefits, discrimination, harassment, working hours, freedom of association and occupational health and safety.
- **Organizational Commitment:** Survey evaluates suppliers on the policies, processes and practices they have in place to guide and communicate conduct on governance issues. Topics addressed include business integrity, anti-bribery, anti-corruption and antitrust regulations, and whistleblower systems.

In 2025, the average response rate for the three surveys was 55.2%, compared to 44.% in 2024, exceeding response rates achieved since 2021 and surpassing Sensata's internal goal of achieving a 50% response rate for 2025. These results validated the decision to adopt a revised engagement strategy.

Sensata remains committed to gaining meaningful insights into its supply chain and ensuring supplier compliance with its policies. Sensata will continue to partner with and educate suppliers to strengthen awareness, improve compliance with Sensata policies, and reduce the risk of modern slavery and human trafficking across its global supply chain.

Due Diligence

Under the terms of Sensata's Supplier Code of Conduct, Sensata is permitted to audit its suppliers' compliance with the Supplier Code of Conduct, including, but not limited to, the provision prohibiting forced labor and human trafficking. Sensata's on-site supplier audit program, led by a third party, focuses on compliance with its Supplier Code of Conduct and applicable laws regarding human trafficking and slavery. During the audit, suppliers must provide business processes and procedures, integrity and ethical policies and management system certifications to demonstrate that they comply with all requirements. In 2024, Sensata continued auditing suppliers for compliance with the Supplier Code of Conduct and applicable laws regarding human trafficking and slavery.

Accountability

Sensata maintains internal accountability standards and procedures for employees and suppliers regarding human trafficking and slavery. All employees and suppliers are subject to the requirements of Sensata's Code of Business Conduct and Ethics and Human Rights and Working Conditions Policy. Non-compliance by Sensata facilities and suppliers with these policies are addressed according to Sensata's internal reporting and investigative processes. A failure to promptly correct any violation of these requirements, and specifically the prohibition of human trafficking and slavery, may result in the termination of business with a supplier.

For Fiscal Year January 1, 2025 through December 31, 2025

Education and Training

Sensata's Employee Ethics Training Program, which is offered to all employees on a continuing basis both online and in person at Sensata's operating locations worldwide, addresses human rights issues and indicators of slavery and human trafficking. In addition, Sensata provides training materials regarding the prohibition of human trafficking and modern slavery to its suppliers during periodic meetings, which are also available through its [Supplier Portal](#).
