## Modern Slavery Statement

### Introduction

This statement sets out the actions that Rich Products Ltd has taken to understand all potential modern slavery risks related to its business and to put in place steps that are aimed at ensuring that there is no slavery or human trafficking in its own business and its supply chains. This statement relates to actions and activities during the financial year [1 January 2023 to 31 December 2023].

Rich Products Ltd recognises that it has a responsibility to take a robust approach to preventing slavery and human trafficking and is committed to constantly reviewing and improving its practices.

Rich Products Ltd is absolutely committed to preventing slavery and human trafficking in its corporate activities, and to ensuring that its supply chains are free from slavery and human trafficking.

### Organisational structure

This statement covers the activities of Rich Products Ltd. Rich Products Ltd supplies bakery products to a diverse range of customers, from leading coffee shop chains to renowned department stores and well-known supermarkets. Rich Products Ltd is registered in England (registered number 1847615).

### Supply Chains

Supply chain security and integrity is a crucial component of our business model. Robust technical and traceability systems ensure that our products are responsibly sourced from suppliers whose values are aligned with our own. Every supplier is subject to a rigorous approval process where extensive checks are carried out, both technically and commercially to ensure that the supplier complies with all of our requirements before being approved. Ongoing checks are also carried out on a regular basis either via the use of our quarterly performance scorecard and/or technical audits.

We work to influence suppliers' practices and where gross violations are uncovered; we would attempt to work with the supplier to correct it in the first instance. If it became apparent that the required improvement is not possible, then a review of the trading relationship would be undertaken.

As a business we use Labour Providers to supply a percentage of our workforce. Each Labour Provider is audited against our own Labour Provider audit standard every 6 months. Within these audits, the ETI Base Code and controls around Modern Slavery are reviewed.

We always monitor, assess, and mitigate the potential risk areas in our supply chains and have robust systems in place to deal with such risks. We provide Supplier Self Audit Questionnaires which include an Ethical Section as per below and have recently implemented the use of a software tool called Tracegains across our Supply base. This software allows us to determine when BRC and specifications are due for renewal in advance of the completion date.
