Barentz has considered risks within our business and through our TACCP, VACCP, HACCP (Thread, Vulnerability and Hazard Analysis Critical Control Point) processes have identified that our choice of partnership with third party Suppliers is crucial to assuring our position as a leading Distributor.

To this end, we have developed systems to ensure that Barentz works only with Manufacturers who are leaders in their respective fields within the Pharmaceutical, Nutraceutical, Personal Care, Human Nutrition and Animal Nutrition industry sectors. These Manufacturers must have a level of formal quality accreditation of at least ISO9001 or equivalent and must be compliant with all applicable local and national legislations regarding working practices and the products that they supply to Barentz.

Barentz operates a comprehensive and transparent Supply Chain network. Warehouse and Distribution partners are assessed for suitability and the ability to provide the expected standards and are continually monitored by our Quality & Regulatory and Supply Chain teams to ensure both quality standards and performance are optimised. Barentz is confident that through our choice of internal and outsourced logistics we can offer a robust and reliable service ensuring that these Suppliers conform to the relevant Codes of Practice, legislation, or regulatory agencies as required.

Barentz neither engages in nor supports the use of forced, bonded, involuntary or child labour. As such, Barentz complies with the standards of the International Labour Organisation and the minimum age requirements in all countries in which Barentz conducts business. Barentz ensures that its employees work in a safe environment and complies with applicable local and national regulations with regards to the work environment, working hours and working conditions.

Our performance indicators

We will know the effectiveness of the steps that we are taking to ensure that slavery and/or human trafficking does not take place within our business or supply chain if no reports are received from employees, our Suppliers of product or service, our Customers, regulatory agencies, other interested parties or through on-going review, inspections and audits of our quality systems.
