The Modern Slavery Act 2015 requires commercial organisations supplying goods or services with a turnover above £36m to prepare and publish an annual 'Slavery and Human Trafficking Statement'. The Group operates a zero-tolerance approach to breaches of the Modern Slavery Act 2015 and has in place policies and procedures in relation to whistleblowing as well as regularly undertaking reviews of its working practices to ensure compliance.

The Group's recruitment processes are formalised and documented with all new appointments being approved by senior Directors. There are robust procedures in place in relation to vetting new employees which enables the Group to confirm their identities and ensure that they are paid both directly and correctly.

In relation to its own suppliers, the Group has written to all those in its supply chain to confirm that they also hold and adhere to these principles, and further to confirm that they themselves have made efforts to ensure the same of their own supply chain. To date this has not highlighted any issues which require addressing.

Training

Modern Slavery awareness training is being given to those members of the Group who we identify as being at risk of exposure to these practices. The Group identifies this in the main to be hiring managers and those involved with the creation of new supplier relationships.

Approval

This statement is made with respect to the financial year ended 31 January 2024 in accordance with section 54(1) of the Modern Slavery Act 2015. The statement will be reviewed and updated (if necessary) annually to reflect our ongoing commitment to ensuring that its business and supply chains are free from slavery and human trafficking.
