Our Supply Chain

NTT Finance UK Limited's main service is to procure funds through various funding sources (such as commercial paper and bank loans from financial institutions not only in UK or Japan but also in other countries such as US), and provide comprehensive intra-group financial support for NTT Group companies, either directly or through its parent company NTT Finance Corporation, to promote the advancement of NTT Group businesses mainly in Europe.

Our supply chains provide us with goods and services. NTT Finance UK Limited strives to

ensure that our supply chains operate in an honest, fair, and transparent manner. Together with our suppliers, we are acting and striving to address various social issues related to human rights, labour, environment, and corrupt practices that may occur within our supply chain. All suppliers, sub-contractors, and business partners we engage must agree to our position on human rights and commit to not using any form of forced labour. They must comply with the NTT Group Guidelines for Sustainability in Supply Chain, all applicable modern slavery laws and regulations, and have adequate controls in place to ensure that they are not exposed to or complicit in human trafficking and modern slavery. To date, we have not been made aware of, through our "Corporate Ethics Helpline" or otherwise, any complaints or allegations of human trafficking or slavery activities against any of our suppliers. Should NTT Finance UK Limited become aware of an incident of modern slavery or human trafficking within its supply chain, NTT Finance UK Limited will work with the relevant supplier to implement swift remedial actions.
