

Modern Slavery and Human Trafficking Statement

Malgra Limited (trading as MalgraBooks)

This statement is made on a voluntary basis and sets out the steps taken by Malgra Limited to prevent modern slavery and human trafficking in our business and supply chains.

About us

Malgra Limited is a UK-based software business providing cloud accounting and bookkeeping tools (including the Pulse system and apps) to small businesses and self-employed individuals.

We are a small organisation with a limited supply chain, consisting primarily of cloud hosting, software services, and professional service providers.

Our supply chains

Our suppliers are predominantly UK and EU-based technology and professional service providers.

We consider the risk of modern slavery within our direct operations and supply chain to be low, given the nature of our business and the regions in which our suppliers operate.

Our policies

We are committed to acting ethically and with integrity in all business dealings. We expect the same standards from our suppliers and partners. Any concerns about modern slavery can be raised with our team directly.

Due diligence and risk

We assess our supply chain on an ongoing basis. Where we engage new suppliers, we consider their reputation and practices.

We will take appropriate action if we identify any indication of modern slavery or human trafficking connected to our business.

Training and awareness

Given our size, awareness of modern slavery risks is maintained at management level, and we keep our understanding current with available guidance.
